Fiber Optic Separator for Suspension Wire

Uses
This tool is for separating suspension wires from drop optical fibers or DR/DS cables.

Advantages
1. A cable guide is attached to ensure high quality of separation.
2. This compact and lightweight design is effective for the use of long hours of work.
3. Material of the blade is carefully chosen and heat-treated for better durability.
4. The blade edge has a protective covering to ensure safety when used.
